

## Parker Products in Action

**New video page shows applications at work.**

Watch how Parker is moving beer bottles in Germany, driving armed robotic systems and getting ready to go to the moon.

Guess how many beer bottles a Parker-driven sorter can move an hour. Ten thousand? Fifty thousand? More?

Find out at our new video landing page, where you'll also see footage of the new NASA JPL All-Terrain Hex-Limbed Extra-Terrestrial Explorer (ATHLETE), see a demo of a unique fuel cell hybrid scooter and much more!
