

# Parker Racing Goes Online

Parker announces racing website and exciting new Brammo video.

Parker’s Electromechanical Automation Division, a global leader in motion and control technologies, is proud to announce the launch of a new website dedicated to our efforts in the racing market. [Parker.com/racing](http://Parker.com/racing) highlights our partnership with Brammo, makers of all-electric racing bikes, for which Parker supplies the PMAC motor (Parker’s [GVM](#)).

Parker has also created a video that showcases how the GVM has helped Brammo take the checkered flag in motorcycle competitions; the motor is also now part of their production bike. The video is live on [YouTube](#).

“We’ve created a portal to all things Parker racing,” said Jay Schultz, Industry Market Manager at Parker Hannifin. “Visitors will be able to follow Shelina Moreda, Eric Bostrom and Steve Atlas all season long—starting recently at Sonoma Raceway. Parker will be posting pictures, race results and more. Really fun stuff.”
